

UpSchool

K-12

Teacher

Workshop

UpSchool Teacher Workshops give K-12 educators the skills, experience, and confidence to teach entrepreneurship to students, across all levels.

WADE
INSTITUTE

Info

Our professional development programs give educators the skills, experience and confidence to embed entrepreneurial practices in their classrooms and grow their leadership potential.

Through our proven experiential learning model, participants engage first-hand with material essential to developing as a leader and supporting Australia's next generation of thinkers, doers and creative problem solvers.

Unlike traditional professional development programs, UpSchool Workshop is fun and immersive. You will experience, as a student, the methods and processes involved in building a sustainable business, before jumping back into the shoes of a teacher to gain actionable implementation strategies for incorporating entrepreneurial thinking and practices into your own curriculum.

Embedding entrepreneurial thinking and practices in the classroom helps students build enterprise skills – such as resilience, critical thinking, financial literacy, creativity and communication – helping them thrive in the future workforce and setting them up for success.

In addition to being a stand alone PD program, teachers who participate in UpSchool will receive the training required to support the facilitation of the Student Entrepreneurial Sprint.

Teachers will gain:

- A deeper understanding of the fundamental principles of entrepreneurship
- Immersive and interactive experience to accelerate learning and connection
- Experience first-hand the steps of entrepreneurship
- Techniques for incorporating entrepreneurial thinking across a range of disciplines back in the classroom.
- A takeaway resource toolkit

Program delivery

3-day program and ongoing support

Delivered by

Wade Institute of Entrepreneurship, Parkville, VIC

Cost

\$1,500 + gst pp or \$1,250 + gst pp for groups of 3 or more

UpSchool Programs

Our UpSchool programs provide opportunities for educators and their students to develop essential 21st century skills through transformative learning experiences. Delivered at our purpose-built entrepreneurial training facility, our UpSchool Innovation Challenge and Teacher PD programs can help your school take the next step in delivering innovative education for the future.

Wade Institute

Wade Institute is situated at Ormond College and is part of the Melbourne Entrepreneurial Centre at the University of Melbourne. We deliver programs designed to accelerate entrepreneurial and investor learning, including the University of Melbourne's Master of Entrepreneurship and the LaunchVic sponsored VC Catalyst program.
