INSTITUTE

Info

UpSchool Student Challenges are experiential, transformative programs developed to expand students' knowledge and life experience. They provide a framework for students to build valuable skills including teamwork, resilience and independence.

Through hands-on, experiential learning journeys, students will develop enterprise skills and an entrepreneurial mindset – essential tools to successfully navigate an ever-changing world. Following key self-reflection and team building projects, students are thrown into the process of navigating the entrepreneurial journey – brainstorming, prototyping and building solutions to a problem.

Delivered at our purpose-built entrepreneurial training facility at Ormond College, the University of Melbourne, students get a glimpse into their future lives at university and beyond.

The programs maximise links to the Australian Curriculum and are facilitated by Wade Institute expert entrepreneurial educators, and entrepreneur mentors. Each program, from our 1-day challenge to the 5-day bootcamp, is designed to be flexible and be tailored to your school's needs.

Students will gain:

- A transformative learning journey building essential life skills
- Exposure to young, diverse and enthusiastic entrepreneurial role models
- Hands-on, experiential and immersive experience
- A safe environment to make mistakes and turn them into opportunities
- An opportunity to experience life as an entrepreneur
- Ties to Australian Curriculum ensures continuation of growth back in the classroom
- An exposure to life as a university student

Program delivery

1-day challenge to 5-day bootcamp for 25+ students

Delivered by

Wade Institute of Entrepreneurship, Parkville, VIC

UpSchool Programs

Our UpSchool programs provide opportunities for educators and their students to develop essential 21st century skills through transformative learning experiences. Delivered at our purpose-built entrepreneurial training facility, our programs can help your school take the next step in delivering innovative education for the future.

Wade Institute

Wade Institute is situated at Ormond College and is part of the Melbourne Entrepreneurial Centre at the University of Melbourne. We deliver programs designed to accelerate entrepreneurial and investor learning, including the University of Melbourne's Master of Entrepreneurship and the LaunchVic sponsored VC Catalyst program.
