Ventures

AgTech Investor Education Program

Ag Ventures is an innovative program designed to empower participants with the skills and knowledge to make investments in the AgTech sector. The defining outcome of this program is the development of a personal investment thesis for AgTech, which serves as a cornerstone for informed and strategic decision-making.

Led by industry experts from Wade Institute and Tenacious Ventures, you'll gain access to Australia's most innovative AgTech network and cutting-edge insights into investment strategies. You'll explore AgTech business models, gain insights into due diligence and investment strategies, and build new networks in the AgTech ecosystem.

Through expert-led online masterclasses, you'll delve into trends, emerging technologies, and practical investment strategies. Optional in-person site visits will offer insights into production methods, waste management, and supply chain dynamics. At Demo Day, you'll engage with innovative startups and apply your investment thesis to real-world opportunities.

Ag Ventures is designed for those ready to drive impact in AgTech and help shape the future of Australian agriculture. This program provides the tools, insights, and connections to play a meaningful role in transforming the sector and funding Australia's future.

Participants will:

- Develop a data-driven investment thesis tailored to AgTech.
- Build confidence in stage-appropriate due diligence for AgTech startups.
- Gain exclusive access to Australia's leading AgTech network and ecosystem.
- Strengthen your deal flow pipeline through insights from world-class mentors.
- Stay connected with your cohort and industry leaders through alumni events.
- Master the nuances of AgTech business models and revenue streams.
- Enjoy continued support from Wade Institute and Tenacious Ventures for professional growth.
